MESSAGE FROM THE PRESIDENT

Hello Friends and my fellow EMA members!!!

I hope all are fine and in good health.

May God brings joy, happiness and good health to you and your family. This is the 2nd Issue of our Journal of my tenure on the topic of "SWITCHES".

It is very enthusiastic and energetic to see our committee members dedication related to topic wise journal and their commitment towards it.

In today's world everything is getting automated or wants to be automated. SWITCHES are now getting automated in various brands Everything is getting Wi-Fi enabled, mobile applicable with just click of a button or with sound command via Alexa. The work starts or ends as per the instructions given. Now automation has become part and parcel of our life.

From smart mobile phones to smart switches, everything is getting better with evolving technology and consumer friendly. With this I give you insight of our journal on the related topic of SWITCHES.

Hope you all will appreciate this edition as you have liked our previous editions.

I wish you all Happy Dussera, Advance Happy Diwali and happy new year samvat 2079 Good Health and Prosperity.

Thank You,
Nirmohi Shah
President-2022-2023

HAPPY Diwali

WHAT IS A SWITCH?

A switch is a device for making and breaking the connection in an electrical circuit. A switch is a small control for an electrical device which we use to turn the device on or off. Most of the common type of switches come in different styles such as

TOGGLER

ROCKER

SLIDDER

PUSH BUTTON

A switch in an electronic device is used to interrupt the flow of electricity or electric Current. Electrical switches are binary devices, they can be either completely on or completely off. In simple English, switch off is an electrical device which is used to break or make the electronic circuit. As we would have guessed, switches are important but scarcely deserve the respect they should be getting.

There are different types of electrical switches:

One Way Switch

Two Way Switch

Intermediate Switch

Bell Push Switch

Dimmer Switch

Double Pole Switch

Touch Switch

In our edition ahead we take you to th journey of explaining the functionality of each switch in details.

1. ONE-WAY (SINGLE-POLE) ELECTRICAL SWITCH

A one-way or single-pole electrical switch is the most common one in use. They are used to control lights, fans, or other devices from a single location. It has a simple ON and OFF marking. This is something you may not find on three-way or four-way switches. A single-pole or one-way electrical switch generally comes with two brass-colored screw terminals and is connected to the "HOT" (current-carrying) wire, which is usually black. One of the brass terminals is for the incoming hot (current-carrying) wire, and the other terminal is for the outgoing hot (current-carrying) wire to the device. Most of the one-way switches also include a ground terminal for connecting the circuit's ground wire. A one-way switch basically operates as a make or break switch. When it is turned ON, the two terminals are connected, and when it is turned OFF, the contact between the two is broken.

2. TWO-WAY (DOUBLE-POLE) ELECTRICAL SWITCH

A two-way or double-pole electrical switch is generally used in industrial applications but can also be found in some home wiring systems. Like the single-pole switch, a two-way or a double-pole electrical switch may also have the ON and OFF markings on them. These switches control a device or equipment from more than one location. A double-pole switch has four hot brass terminals (instead of two terminals like a one-way). It also has a ground terminal, allowing you to connect it to two pairs of hot wires. A two-way or double-pole switch is basically two, one-way switches combined into one. One of the terminals can be connected to either of the remaining two but both the terminals cannot be connected at the same time. When you want to make a connection with one terminal, the connection with the other is broken. The Double-Pole or the Two-way switches are generally used for 30 amps (in comparison to the 15 or 20 amps in case of standard switches), so they are able to control higher-demand appliances, like motors, and machinery.

3. DO NOT DISTURB SWITCH

Entirely different from the regular switches available in the market, this soft touch operating switch is generally used in places like hospitals and hotels. Do Not Disturb Switch is generally used to ensure privacy and silence

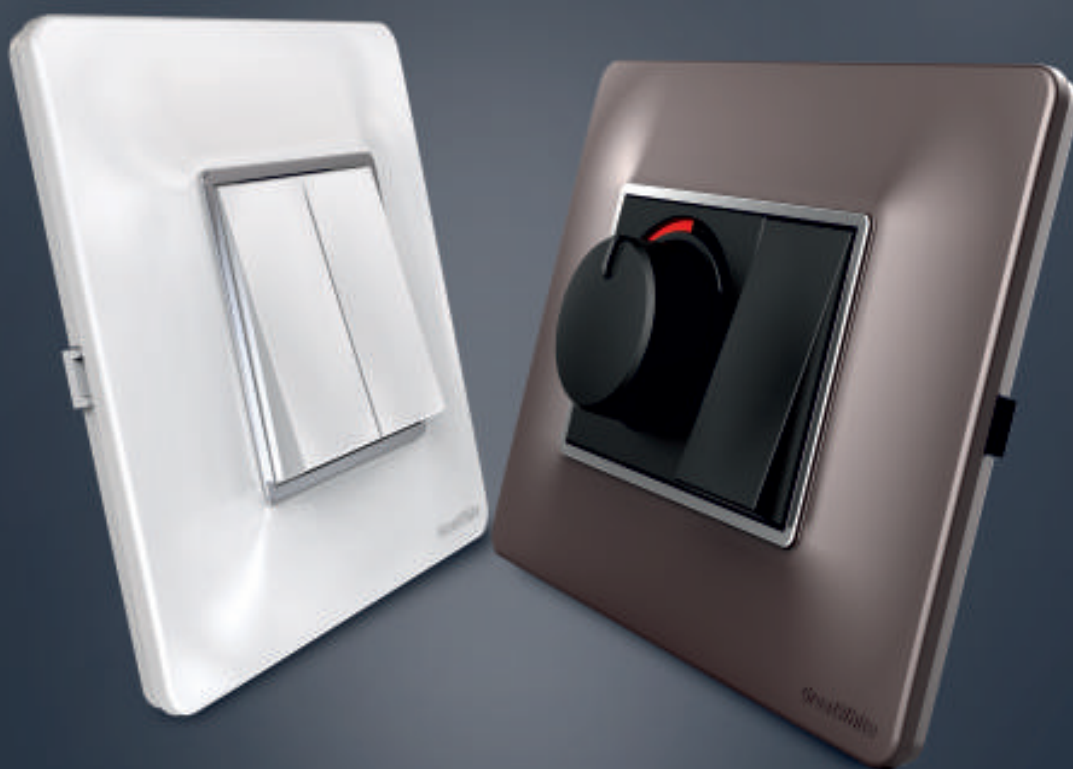

4. BELL PUSH SWITCH

A Bell Push switch is connected to a doorbell. So, when the switch is pushed, it rings the bell connected to it. It can be used at homes, offices or at any other place wherever required. A Bell Push switch always maintains a broken circuit, unless the button is pressed.

WHAT IS A MODULAR DOMESTIC SWITCH?

Modular switches are **modern switches, which can be found in any home, office, or commercial premises.** They have a number of advantages over conventional non-modular electrical switches. The main features that distinguish them from traditional ones are aesthetics and ease of use.

HOME AUTOMATION & TOUCH SWITCHES

WHAT IS SMART TOUCH SWITCHES?

Switch to Smart Touch Switch

These switches not only look different from the conventional switches, but they also work differently. Using a single smart switch, you can activate all the electrical devices in a room. Thus, you no longer have to manually operate different switches & devices.

WHAT DOES A TOUCH SWITCH DO?

A touch switch is a type of switch that only has to be touched by an object to operate. It is used in many lamps and wall switches that have a metal exterior as well as on public computer terminals. A touchscreen includes an array of touch switches on a display. A touch switch is the simplest kind of tactile sensor.

NEWS UPDATES

GST REVENUE UP 28% YEAR-ON-YEAR IN AUGUST

During the month, revenue from domestic transactions (including import of services) and import of goods grew by 57%, up 19% from revenue from these sources during the same month last year. Monthly GST revenue for six consecutive months is over Rs 1.4 lakh crore. Better data on GST revenue ensures that the impact of various measures taken by the GST Council for better compliance is evident.

What were the CGST, SGST, and IGST collected in August 2022?

In August 2022, the GST revenue collected was Rs 1,40,885 crore which is divided into:

- CGST: ₹ 24,710 crore
- SGST: ₹ 30,951 crore
- IGST: ₹ 77,782 crore (including ₹ 42,067 crore collected on import of goods)
- Cess: ₹ 10,168 crore (including ₹ 1,018 crore collected on import of goods).

FORTUNE INDIA RICH LIST 2022

HIGHLIGHTS

- Few days back Gautam Adani became the richest person in Asia. Then he left behind Bill Gates and Warren Buffett. After this, his dominance in the list of top-10 billionaires kept increasing.
- Talking about the difference between the wealth of the world's third richest person Gautam Adani and the fourth richest person Jeff Bezos, there is a difference of USD 12.1 billion in their total wealth.
- Tesla Chief Executive Elon Musk leads the list of the rich with a net worth of USD 253 billion, followed by French business magnate Bernard Arnault, who has a net worth of USD 154.9 billion.
- Reliance Industries Chairman Mukesh Ambani's wealth has also increased. With this, his net worth has increased by USD 2.3 billion to USD 94.6 billion. With this, he has come from number nine in the list to number eight.
- Talking about other billionaires, Bill Gates is the sixth richest person with USD 106 billion and Warren Buffett is the seventh richest person with USD 96.4 billion.
- Apart from this, Larry Page is ninth with USD 91.9 billion and Sergey Brin is in 10th place with a net worth of USD 88.1 billion.

ADANI GOUP

An Indian multinational conglomerate, headquartered in Ahmedabad, was established by Gautam Adani in 1988. It was founded as a commodity trading business under name Adani Enterprises Limited. Its diverse businesses include port management, airport operation, mining, electric power generation.

TOKYO OLYMPIC GOLD MEDALIST NEERAJ CHOPRA HAS BECOME THE FIRST INDIAN TO WIN

KEY POINTS

- Neeraj Chopra started with a foul but rose to the top spot with a throw of 88.44m – the fourth best of his career – in his second attempt, and it turned out to be his winning effort. He did 88.00m, 86.11m, 87.00m and 83.60m in his next four throws.
- Chopra was also awarded the Diamond Trophy, prize money of US\$30,000 and a wild card for the 2023 World Athletics Championships in Budapest, Hungary.
- Czech Olympic silver medalist Jakob Vadle finished second with a best throw of 86.94m, which he recorded in his fourth attempt. Germany's Julian Weber finished third with 83.73m.

NEERAJ CHOPRA

He is an Indian track and field athlete competing in javelin throw. He has become the first track and field athlete to win an Olympic gold medal for India and second Olympic athletics to win for India after Norman Pritchard, who won two silver medals at 1900 Summer Olympics for India.

He was inducted as Junior Commissioned Officer (JCO) in Rajputana Rifles of Indian Army in 2016. He made his debut at 2018 Commonwealth Games.

NEWS UPDATES

QUEEN ELIZABETH II DIES : 10 GK & CURRENT AFFAIRS FACTS

Britain's longest-reigning monarch Queen Elizabeth II died at Balmoral Castle in Scotland on September 8, after ruling for 70 years.

ABOUT QUEEN ELIZABETH II

- Queen Elizabeth II was born as Elizabeth Alexandra Mary on 21 April 1926 as the first child of the Duke and Duchess of York (later King George VI and Queen Elizabeth).
- She acceded to the throne on 6 February 1952 at the age of 25 after her father, King George VI died.
- She was crowned as queen of Britain and other realms, including Canada and Australia on 2 June, 1953.
- She is also Head of the Commonwealth and Supreme Governor of the Church of England. In 1945, she had actively joined World War II as a driver in the Women's Auxiliary Territorial Service (WATS).
- For most of her subjects, she was the only monarch they had ever known, featuring on stamps, banknotes and coins, and immortalised in popular culture.
- After being in good standing for most of her elderly life, the Queen's health started to deteriorate after the death of her husband, Prince Philip, in April 2021.
- She saw 14 Prime Ministers of UK during her reign, from Winston Churchill to Liz Truss. In a first, she appointed Liz Truss in Balmoral in Scotland as she was too ill to return to London.
- In 2015, Queen Elizabeth became the longest-serving British monarch, surpassing her great-great grandmother Queen Victoria. This year, she became the world's second longest reigning monarch.
- Upon the Queen's death, her eldest son Charles, Prince of Wales, immediately acceded to the throne as King of the United Kingdom and fourteen other Commonwealth realms.

AMENDMENT OF FOREIGN TRADE POLICY OF INDIA FOR RUPEE SETTLEMENT

The Central Government has made changes to the Foreign Trade Policy of India to activate the RBI's mechanism facilitating trade in the Indian Rupee.

KEY FACTS

- The recently amended Foreign Trade Policy of India allows international trade invoicing, payment and settlement in the Indian Rupee.
- It enables Indian importers to make payments in rupees via the special Vostro accounts of the partner country bank against the invoices for the purchasing of goods or services from the overseas seller or supplier.
- The new mechanism can be used by the banks after getting the approval from the Reserve Bank of India.
- This gives effect to RBI's mechanism that was unveiled in July to settle international trade in rupees to counter the depreciation of global currencies.
- The RBI mechanism aims to promote trade with Russia, which also uses a similar mechanism to settle payments with Iran that is currently facing sanctions from the Western countries.
- It is one of the major steps taken by India to achieve capital account convertibility.

WHAT IS A VOSTRO ACCOUNT?

A Vostro account is an account held by a domestic bank on behalf of another foreign bank in the domestic bank's currency. In Latin, the word "Vostro" means "Yours". The bank holding the funds acts as a custodian for the account of a foreign counterpart.

ABOUT CAPITAL ACCOUNT CONVERTIBILITY

Capital Account Convertibility is a feature of a country's financial regime that provides freedom to conduct investment transactions without any constraints. It removes all restrictions on the amount of domestic currency that can be converted into foreign currency to enable the acquiring of any foreign asset. India currently has a partially convertible capital account policy. A fully convertible capital account ensures increased stock market returns, reduction in transaction cost due to free rupee convertibility and a boost in savings and investments.

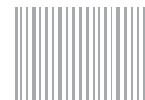

All products from Norisys have been developed to establish new standards in electronics manufacturing. Our products combine design, electronic efficiency and engineering details in modern manufacturing practices and stringent quality measures have combined together to ensure a new generation of reliable, healthy, flexible and sustainable.

Norisys has a full-fledged well equipped research and development division, which works on a wide range of products, from low cost engineering to high end products. The research and development division has a fully integrated product development environment that ensures the development process right from concept to design to manufacturing.

All Norisys products are designed for extreme endurance. Norisys are chosen to withstand various conditions - dust, high humidity and -20°C to 125°C. Norisys has a track record of innovation and durability of our products.

SEMINAR

Speaker : Shri Gyanvatsal Swami

Saturday, 25th February 2023

Dear Members,

We are extremely happy and proud to announce that EMA has organised motivational seminar to be addressed by spiritual speaker Shri Gyanvatsal Swami. He is a Motivational Speaker, Social Reformer from Akshardham, BAPS (Bochasanwasi Akhsar Purushottam Sanstha) Swaminarayan Mandir.

He has given motivational speeches at different seminars and in multiple countries including New Zealand, Europe, Canada, the United States, and England. He covers a wide range of niches such as Stress, work-life, career, education, etiquette, attitude, etc.

Less-known Facts about Gyanvatsal Swami

- Gyanvatsal Swami is an avid reader. In fact, reading is his only hobby.
- He is recognized as the Swami of the BAPS Sanstha.
- Most of his motivational videos go viral on the internet. His amazing abilities to deliver a motivational speech (that could actually help people) have earned him lots of fame.
- His real name is Rakshit Rawal.
- Gyanvatsal Swami received his training from Pramukh Swami, his Guru.

Q-5 Can I track the Activity history in AIS?

Yes, you can track the activity history in AIS by clicking on the Activity history button on AIS homepage. You will be provided a summary view of activity performed on the AIS functionality. System generated Id (Activity ID) will be created for each performed activity, Activity date, Activity description and detail will be displayed under this tab.

Further, within an Information Category following information is shown:

- Part through which information received
- Information Description
- Information Source
- Amount Description
- Amount (Reported, Processed, Derived)

Q-6 How do I submit feedback on the information?

You can submit feedback on active information displayed under TDS/TCS Information, SFT Information or Other information by following below mentioned steps:

Step 1: Click on “Optional” button mentioned in the Feedback column for relevant information. You will be directed to ‘Add Feedback’ screen.

Step 2: Choose the relevant feedback option and enter the feedback details (dependent on feedback option).

Step 3: Click “Submit” to submit the feedback

Q-7 What will happen once I submit the feedback?

Upon successful submission of feedback on AIS information, the feedback will be displayed with the information and the modified value of the information will also be visible with the reported value. The activity history tab will also be updated, and you will be able to download Acknowledgement Receipt. Email and SMS confirmations for submission of feedback will also be sent. (“For more info. navigate to AIS under Services Menu after login”)

Q-8 Is there any confirmation will be received on submission of AIS feedback?

Yes, after successful submission of your feedback on AIS information, the activity history tab will be updated, and you will be able to download Acknowledgment Receipt of the same. Email and SMS confirmations for submission of feedback will also be sent.

Q-9 Is there any limit on the number of times I can modify a given feedback?

Currently, there is no limit on the number of times you can modify previously given feedbacks.

Q-10 Can I verify the GST turnover in AIS?

Yes AIS does display the information related to GST turnover under information code (EXC-GSTR3B). The same would be visible in the Other Information tab in AIS.

Q-11 Is there any video tutorial available for AIS?

Yes, there is an informational video available on YouTube for AIS. This video can be accessed here [Basic information on Annual Information Statement functionality – YouTube](#)

a **WONDER** creation.

Shri Ashok Loya

20th September 2022

With Profound Grief, We the Managing Committee and the Members of The Electric Merchants' Association deeply mourn the sudden demise of Shri Ashokji Loya (Director at M/s. R. R. Kabel Ltd). For EMA Members, he will be remeberred for his simplicity, soft spoken personality and his positive approach to life which has inspired us in all our endeavours. We offer our heartfelt condolences to the entire M/s. R. R. Kable Ltd. and Ram Ratna Wires Ltd. family. May God rest his soul in peace.

Shri Nitin Khambhati M/s. Trinity Electric Syndicate (1945 - 2022)

(1945-2022) A man with a mission, vision, passion and compassion. For Trinity, which is the oldest contracting & Trading firm & its staff and colleagues he was an ever smiling mentor who took the family legacy forward and was one of the chief architect of its journey of 105 years. He was an active member of EMA & Electrical Contractors association. For Lions Club he was a Past District Governor with a difference. One who connected with all. And a large hearted human who made a difference in the lives of many. As a trustee of Sanskar Bal Mandir and Academy, he was a visionary with big dreams. For Shantivan, a senior citizen home, he was a trustee and a tireless crusader who cared for the residents and made their life comfortable. He leaves behind a legacy which will inspire the next generation to soar higher.

With deep regret, we would like to announce the passing of our
Senior Partner

Shri Arvind B. Sheth

on August 28, 2022.

POLICY

We at EMA are committed to achieve satisfaction of our members by all such means as may be deemed necessary within legal framework and acceptable to all interested parties. We will try to achieve our objectives by adhering to applicable requirements and try to continually improve the effectiveness of the quality management systems

VISION

- 1) To become a one stop solution for the members to resolve all their business related issues.
- 2) To be associated with other similar institution and other allied associations across the globe for the betterment of the members.

SCOPE

Safeguarding interest of the Members, keeping them up to date with relevant information, providing a platform to the members for exchange of ideas, resolving trade disputes of the members providing them with legal administrative and technical support, engaging them in various recreational activities.

ACHIEVEMENT

Provided a meeting place for conference, exhibition, demonstrations, lectures, seminars and other relevant functions for exchange of views of members and other interested parties.

PURPOSE

To promote co-operation among persons, firms, companies connected with the electric trade and industry in India, whether as importers, exporters, wholesale or retail dealers, manufacturers, contractors, consultants or commission agents. With a view to their adopting a common policy and collectively taking such steps as may be considered

necessary or expedient to further and safeguard the interest of trade and industry.

To frame and from time to time update and try to enact rules and bye-laws for the benefit of and binding on the Association and/or its members and non-mebers dealing with the members to promote and safeguard the interest of the Association and its members.

To elevate standard of business moral and promote system of preferential treatment to the members of the Association.

Providing facilities and machinery for the settlement of disputers by arbitration.

To take such steps which may be deemed necessary for promoting, supporting or opposing legislation or actions by the Government or any departments thereof or by any local body or bodies and in general to take the initiative to safeguard the interests of the Electrical Trade and Industry.

To Organise in a calendar year at least one :

- Excursion
- Factory Visit
- Social Family Gathering
- Sports Event
- Medical Seminars
- Medical Camp for Members and Staff.
- Technical Seminar
- Taxation Seminar

To acquire, verify and circulate relevant notifications issued by regulatory authorities among the members within two weeks of their receipt.

To educate general public including members by all suitable means on the advantages and the utilities of electricity, electrical appliances and articles used for domestic, commercial and industrial purpose twice a year.

Establishing, equipping and maintaining a library for the benefits of the members.
