મુંબઈ, ભારત - ઇન્ડિયા પોસ્ટના સહયોગથી યોજાયેલો તાજેતરનો EMA કેમ્પ ખૂબ સફળ રહ્યો હતો. પ્રમુખ પ્રેમ વોરાના નેતૃત્વ હેઠળ કેમ્પમાં આયુષ્માન ભારત યોજના અને EMA સભ્યોના સ્ટાફને અકસ્માત વીમા કવરેજ પૂરું પાડવામાં આવ્યું.

- આયુષ્માન ભારત અને અકસ્માત વીમા શ્રેણીઓ હેઠળ વીમો કરાયેલા 740++ સ્ટાફ સભ્યો
- EMA સભ્યો માટે PAN કાર્ડ અને આધાર

આપોડેસની સુવિધા  
● ઇન્ડિયા પોસ્ટ ભાગીદારીની ઇવેન્ટના અસાધારણ સંચાલન બદલ પ્રશંસા કરવામાં આવી  
EMA સમુદાયે આ પહેલ માટે કૃતજ્ઞતા વ્યક્ત કરી છે, જેનાથી સ્ટાફના સભ્યોને નોંધપાત્ર લાભ થયો છે. પ્રેમ વોરાના નેતૃત્વ હેઠળ ભૂતપૂર્વ પ્રમુખો અને કલ્યાણ સમિતિના અધ્યક્ષો નિર્મોહી શાહ, પ્રશાંત પરીખ અને

ભાવિક પરીખના માર્ગદર્શન હેઠળ કલ્યાણ સમિતિના અધ્યક્ષો શ્રી નયન પંડ્યા અને તરંગ રાઠોડે સમગ્ર સમિતિની મદદથી આ શિબિરને સફળ બનાવવા માટે પહેલ કરી હતી.  
શ્રી રાજેન્દ્ર રાણે, ADPO (મુંબઈ GPO) અને તેમની ટીમે EMA ટીમની શિબિરને સફળ બનાવવા માટે તેમના ઉત્કૃષ્ટ પ્રયાસ બદલ પ્રશંસા કરી હતી. તેમણે એવો પણ ઉલ્લેખ કર્યો હતો કે વીમા અભિયાનને આટલો મોટો પ્રતિસાદ પહેલાં ક્યારેય જોવા મળ્યો નહોતો, જે EMA સભ્યોના તેમના સ્ટાફ પ્રત્યેના ભારે રસને ઉજાગર કરે છે.  
આ સફળતા ટીમના તેમના સભ્યોની સેવા કરવા પ્રત્યેના સમર્પણ અને પ્રતિબદ્ધતાને દર્શાવે છે અને અમે ભવિષ્યમાં આવી વધુ પહેલની રાહ જોઈ રહ્યા છીએ.

પ્રેમ વોરાને પ્રમુખપદ સોંપતા નિવૃત્ત પ્રમુખ કેતન ઠક્કરે સભ્યોને સંબોધન કર્યું, તેમના કાર્યકાળ દરમિયાન તમામ સભ્યોના સમર્થન બદલ આભાર વ્યક્ત કર્યો. "આ સન્માનિત સંગઠનની સેવા કરવી એ સન્માનની યાત છે," તેમણે કહ્યું. "હું પ્રેમ વોરા અને ઇમાની

નવી ટીમને તેમના ભવિષ્યના પ્રયાસો માટે શુભકામનાઓ પાઠવું છું."  
પ્રેમ વોરાએ ઇમાના સભ્યોને જવાબદારી સોંપવા બદલ આભાર વ્યક્ત કર્યો. "મને આ ભૂમિકા નિભાવવાનો અને ઉદ્યોગમાં નવીનતા, વૃદ્ધિ અને સહયોગને આગળ વધારવા માટે અધિક મહેનત કરવાનું સન્માન મળ્યું છે," તેમણે કહ્યું. "મારું માનવું છે કે આપણા સંગઠનમાં ઇલેક્ટ્રિકલ ઉદ્યોગોના ભવિષ્યને આકાર આપવામાં અગ્રણી શક્તિ બનાવવી શક્યતા છે અને હું આ લક્ષ્યને પ્રાપ્ત કરવા માટે તમામ સાથીદારો સાથે કામ કરવા આતુર છું.

# REPORT- NOTEBOOK DISTRIBUTION

EMA is always passionate about the betterment of its staff and their welfare, considering them an integral part of the organization's family. This year, EMA arranged a free notebook distribution event for the children of its member staff. We are privileged to have noble sponsors for such noble causes, and this year, the notebook distribution was generously sponsored by **M/s. Precision Plastic Industries Private Limited**. We extend our heartfelt thanks to **Mr. Vrajesh Desai** for his invaluable support.

The distribution of notebooks commenced on 26th May 2025 at the EMA office, in the presence of **Mr. Ketan Thakkar** and the Welfare & Medical Committee Chairmen. This year, each member firm received 2 dozen notebooks, allocated as 1 dozen per staff member. The theme for this year's event was "**Learning Today, Leading Tomorrow,**" emphasizing the importance of education in shaping the future of the children.

More than 900 dozen notebooks were distributed during the event, and to make it even more special, each staff member received a **Funanza Kit (Art Kit)** along with the notebooks. The notebooks were distributed on a first-come-first-served basis. The distribution process required submission of a photocopy of the child's marksheet along with a fully filled form, duly stamped and signed. This initiative reflects **EMA's commitment to supporting the educational needs of its staff's children**, underscoring its dedication to their welfare and development. With the help of Welfare and medical committee chairmen's Harsh Muchhala, Sanjeev Minda, Sanjay Shah and Mentor Samir Mody notebook distribution was very well and smoothly organised

## REPORT ON THE POSTAL CAMP FOR UPDATING PAN CARD, AADHAR AND ACCIDENTAL INSURANCE ALONG WITH ABHA CARD

In our business life what we afraid of most is that during work or after working hours if anything happens to our employee or labour then who is going to take care of them or their family. What about their financial stability. Who will look after their family for financials?

We at EMA never think twice before giving best to our members and staff, always out of the box event, seminar or program are planned for the members. Under the new **President Mr. Prem Vora** this was the 1<sup>st</sup> event organised by the welfare committee chairmen **Mr. Nayan Pandya** and **Mr. Tarang Rathod**.

A special postal outreach camp was organised for two days 24<sup>th</sup>-25<sup>th</sup> July, 2025 at EMA office with the aim of delivering crucial government-linked services to the public under one roof. The camp focused primarily on updating Aadhar and PAN details and enrolling eligible citizens under the Accidental Insurance scheme. This initiative aligns with the broader mission of improving access to essential identity, financial, and social security services, especially for our working staff. Several meetings were done with the ADPO (Marketing Manager) **Mr. Rajendra Rane** and his team by the committee chairmen **Mr. Nayan Pandya**, **Mr. Tarang Rathod** and **President Mr. Prem Vora** and **Vice President Mr. Parin Parikh**. The committee took all the note of how the camp will be organised and what schemes will be offered to the members and their staff so it becomes easier for everyone during the camp. Members and Staff Welfare Committee Chairmen **Mr. Prashant Parikh**, **Mr. Nirmohi Shah**, **Mr. Bhavik Parikh** took all details and helped during the event.

During the committee meeting it was decided that for pan card per member firm 2 person i.e. proprietor/partner/director will be free and more than two ₹110 per person will be taken. For Aadhar the charges will be at actual as per the changes required by the member and their family. Staff accidental insurance per member firm 2 staff were given subsidy of ₹100 each after that full amount will be charged for the insurance.

- PAN card updates (name correction, DOB, linking with Aadhar)
- New PAN application support
- Accidental Insurance Enrolment
- ABHA (Aayushman Bharat) health insurance

Mail and whatsapp were sent to each and every member of EMA for registration as this was preponed due to unavailability of Aadhar machine later.

The public turnout was highly encouraging, over whelming and unbelievable as we were expecting turnout to be nearly 200-300 people but more than 700 persons participated for both insurance and pan/ Aadhar updates demonstrating a growing awareness of the importance of maintaining accurate identity records and availing social security benefits. During the camp light refreshments were provided to the members and the staff.

Originally the camp was

decided for only 2 days but considering the demand and over whelming response from the members and their staff the camp was extended for one more day i.e. Monday 28<sup>th</sup> July, 2025. We collected the forms till 26<sup>th</sup> July for the last day of the event.

Beneficiaries expressed appreciation for the organized layout, prompt service, and helpful behaviour of team EMA and Postal staff. Increased awareness of the importance of insurance coverage for self and their families.

## REPORT ON THE POSTAL CAMP FOR UPDATING PAN CARD, AADHAR AND ACCIDENTAL INSURANCE ALONG WITH ABHA CARD

The camp helped streamline the process of identity verification and financial inclusion. Increasing Aadhar accuracy to avail of government benefits. Expanding accident insurance coverage among low-income staff and their family.

**We are proud to announce that more than**

**- 225+ PAN card updated**

**- 130+ Aadhar card updated**

**- 740 staff members insured under both Ayushman Bharat and accidental insurance programs combined were done through EMA.**

**President Mr. Prem Vora** felicitated **Mr. Rajan Buchde (Director)** with a memento along with a plant. Executive staff of the various department were felicitated with a gift by Team EMA. **Mr. Khanvilkar President of reporter association of Mumbai** was mesmerised after seeing the event organised by Team EMA and he felicitated the President with a memento. **Mr. Rajendra Rane** felicitated President **Mr. Prem Vora** with a special memento made by Philatelic Department within the India Post on Ram Mandir.

This event was covered by print media SS news, midday and Janmbhoomi. Interview was taken by the SS news of the President and the committee chairmen

A huge thank you and congratulations to TEAM EMA for making this initiative a resounding success!

The postal camp was successful in bridging service gaps and bringing essential identification and

financial protection services closer to the community. The positive response indicates the need for more such outreach initiatives.

The Postal Camp served as an effective model for last-mile delivery of critical government services. It not only reduced the burden of

traveling long distances to government offices but also enhanced public confidence in postal and government systems. The successful conduct of the camp reaffirmed the Post Office's commitment to citizen-centric service delivery.

This initiative is a step toward a digitally inclusive and financially secured society, ensuring that no members, their staff and families are left behind in accessing identity, financial, and insurance services.

## What is RCCB

RCCB is Residual Current Circuit Breaker. This residual current device is basically an electrical wiring device that disconnects the circuit whenever there is leakage of current flow through the Human body or the current is not balanced between the phase conductor. It is the safest device to detect and trip against electrical leakage currents, thus ensure protection against electric shock caused by direct contacts. RCCB is generally used in series with an MCB which protects them from over current and short circuit current.

## What is ELCB

ELCB stands for Earth Leakage Circuit Breaker. They have the same function as RCCB but are voltage sensor device. However, this is an old technology & is not in common use. RCCB being a current sensitive device have a better advantage over ELCB as under:

## RCCB: A sensitive Protector

This leads us to the Residual Current Circuit Breaker, or RCCB. You might also hear it called an RCD. Think of the RCCB as a much more advanced and sensitive version of the ELCB, offering even better protection against electric shock.

Just like the ELCB, the RCCB keeps an eye on the electricity flowing in the live and neutral wires. But the RCCB is way more sensitive. It's designed to spot even tiny differences in the current, often as small as just a tiny trickle. If the RCCB detects this tiny imbalance, which means electricity is leaking to the earth, it will trip almost instantly, usually faster than you can even blink.

Because it's so sensitive, an RCCB can protect you in a wider range of situations compared to an ELCB. Unlike ELCBs, RCCBs don't need a perfect earth connection to work. They can even detect if you directly touch a live wire. The tiny bit of current that flows through your body to the earth will create that tiny imbalance that the RCCB notices, causing it to trip and saving you from a potentially serious shock.

Because they react so fast and are so sensitive, RCCBs are super important in places where there's a higher chance of electric shock, like bathrooms, kitchens, and outdoor areas. They give you a much better safety net.

## Difference between RCCB and ELCB

S.No	RCCB	ELCB
1	RCCB refers to ear stands for Residual Current Circuit Breaker.	ELCB stands for Electric Leakage Circuit Breaker.
2	It is a new name and refers to current operated devices.	ELCB refers to voltage operated earth leakage device.
3	It ensures 100% detection of leakage current & is available to sense the AC as well as DC leakage current.	It is not preferable as it can only detect current that flow back through the main earth wire.
4	RCCB has no connection with the earth wire and that's why it can trip when both currents (phase and neutral) are different and it withstands up to both the currents are same.	ELCB is working based on Earth leakage current. These devices measured the voltage on the earth conductor; if this voltage was not zero this indicated a current leakage to earth.

## MCB vs ELCB vs RCCB

Let's differentiate between MCB, ELCB, RCCB. MCBs are your go-to for protecting your electrical system and appliances from damage caused by too much current (overloads and short circuits). ELCBs are an older type that tries to protect you from electric shock by looking for imbalances in the main electrical flow that signal a leak to the ground. RCCBs are the upgraded version, much more sensitive to even tiny leaks to the earth, and they don't need a perfect earth connection to do their job.

The major difference is what they're watching out for and how sensitive they are. MCBs react to big surges of current that could fry your wiring or appliances, while ELCBs and RCCBs are focused on spotting those smaller leaks that could harm people. But RCCBs are the champions of sensitivity when it comes to detecting these dangerous leaks.

We majorly find MCBs on different circuits all over our house. RCCBs are becoming the standard and are often required by safety rules, especially for outlets and in those riskier areas like kitchens and bathrooms. ELCBs are a bit outdated now, and while you might see them in older homes, RCCBs are generally the preferred choice for new installations because they offer better protection.

### QUICK COMPARISON

FEATURE	MCB	ELCB	RCCB
<b>What it protects against</b>	Too much current, short circuits	Leaks to the ground (imbalance in main current)	Even tiny leaks to the ground
<b>Sensitivity</b>	Needs a high amount of extra current to trip	Needs a noticeable leak (e.g., 30mA or more)	Can trip with very small leaks (e.g., 10mA, 30mA)
<b>Main job</b>	Protect wiring and appliances	Help prevent electric shock from ground faults (older tech)	Best protection against electric shock
<b>Needs a good earth connection?</b>	No	Yes	No

### Why You Require ELCB, MCB, RCCB?

Having these safety devices in your home isn't just a nice-to-have; it's absolutely important for keeping your home and your family safe. MCBs are lifesavers when it comes to preventing electrical faults like overload & short circuit. ELCBs, and RCCBs, are all about protecting you from getting an electric shock. Electric shock can cause serious injuries, and these devices react superfast to cut the power when something goes wrong, & reducing the risk of harm. A lot of electric shock accidents could be prevented if RCCBs were properly installed and working.

## INDIA'S PASSPORT STRENGTHENS: WHAT IT MEANS FOR YOU

In 2025, India's passport jumped from rank 85 to 77 on the Henley Passport Index. This leap means more doors are opening for Indians worldwide. Behind this rise are smarter diplomacy, a booming economy, and shifting global travel trends. Let's break down what's happening and why it matters to you.

### WHY THE JUMP HAPPENED

India's visa-free or visa-on-arrival list now includes 59 countries, up with recent additions like Sri Lanka and the Philippines. A few key drivers:

- **SMARTER DIPLOMACY:** New bilateral agreements ease entry terms.
- **ECONOMIC CLOUT :** As India's economy grows, so does its international standing.
- **GLOBAL POLICY SHIFTS:** Some traditionally strong passports (US, UK) tightened entry rules, letting India inch forward.

Together, these factors turned India's passport into a stronger travel companion.

### HOW YOU BENEFIT

A more powerful passport isn't just a bragging right—it brings real perks:

- **Faster Plans:** Skip lengthy visa applications for many destinations.
- **Lower Costs:** Fewer visa fees means more budget for hotels or shopping.
- **Career & Study:** Entrepreneurs, students, and job-seekers gain easier access to conferences, campuses, and offices abroad.
- **Leisure Travel:** With more visa-free choices, weekend getaways become simpler and cheaper.

These conveniences reflect growing global trust in Indian travellers.

### WHAT IT SIGNALS FOR INDIA

Beyond personal ease, a rising passport rank says something big about our nation:

- **STRONGER TIES:** More partnerships and friendly relations across continents.
- **GLOBAL INFLUENCE:** India's voice carries more weight in trade, tourism, and diplomacy.
- **NATIONAL PRIDE:** A passport is more than paper—it's proof we're a country the world wants to engage with.

Experts often call the passport the "soft power" indicator of a nation.

### FINAL THOUGHTS

India's rise on the Henley Passport Index is more than a number—it's proof the world values our people and potential. For you, it translates into smoother travel, wider opportunities, and fresh experiences abroad. And for India, it's a symbol of growing respect and influence on the global stage.

## INDIA-UK FTA IN ACTION

UK Rolls Out the Red Carpet for '**MADE IN INDIA**'

**INTRODUCTION:** The India-UK Free Trade Agreement (FTA) has shifted from negotiation tables to the real world, bringing promising economic transformation. It marks a historic chapter in bilateral relations, offering unprecedented opportunities for trade, investment, and strategic collaboration.

### KEY OUTCOMES:

- **Zero Tariff Entry:** A wide range of Indian goods, including textiles, pharmaceuticals, and engineering products, now enjoy reduced tariffs or duty-free access to the UK.
- **Boost for MSMEs:** Small and medium enterprises benefit from easier market access, streamlined customs procedures, and increased UK investor interest.
- **Services Sector Gains:** Indian IT and financial service providers are leveraging simplified licensing pathways and mutual recognition of qualifications.
- **Employment & Skill Exchange:** A new mobility scheme supports the exchange of professionals, students, and skilled workers, enriching cultural and economic ties.

**STRATEGIC SIGNIFICANCE:** India's 'Make in India' vision finds a receptive partner in the UK, whose post-Brexit global outreach aligns with India's rising export capacity. The red carpet rolled out reflects strategic alignment and mutual ambition.

### CHALLENGES & WAY FORWARD:

- Monitoring non-tariff barriers and regulatory delays will be key.
- Continued dialogues on digital trade, carbon regulations, and financial services will shape phase-II negotiations.
- Industry bodies on both sides are urged to establish support desks for smoother transition and dispute resolution.

**CONCLUSION:** The FTA, now active, sets a precedent for future trade partnerships. It's not just a trade deal—it's a powerful symbol of India's global economic ascent and the UK's reimagined role on the world stage.

## KEY CHANGES IN MSME REPORTING FOR TAX AUDITS

**Summary:** Businesses filing Form 3CD for tax audits must be aware of recent updates concerning payments to Micro, Small, and Medium Enterprises (MSMEs). The changes primarily affect Clause 22, which now requires more detailed reporting on payments to these enterprises. According to the new rules, businesses must disclose the total amount payable to MSMEs for the previous year, separating this into two categories: amounts paid within the 45-day statutory period (Clause 22(iii)(a)) and amounts that were not paid on time (Clause 22(iii)(b)). This is a change from the previous practice, where only delayed payments were reported. The new format mandates a full breakdown of all payments, both timely and delayed. A significant implication of this change is the stricter enforcement of Section 43B(h) of the Income Tax Act, which disallows deductions for any payments to MSMEs that are not made within the prescribed time limit. This update emphasizes the importance for businesses to not only track and report all payments to MSMEs accurately but also to ensure timely payment to avoid penalties and disallowances during tax audits.
